Wakefield Beasley & Associates Commissioned to Design Interiors at Rhythm in Nashville

JACKSONVILLE, Fla. – Wakefield Beasley & Associates’ Jacksonville office was recently engaged to provide interior design for all common areas, including the lobby, fitness center and fifth floor swimming pool deck at Rhythm, a mixed-use project under development on Music Row in Nashville.

Michele Porter, project manger for interiors at Wakefield Beasley’s Jacksonville office, said Rhythm is a 14-story building with 80 condominiums, a parking garage and upscale retail space underway by Rhythm Development LLC of Brentwood, Tenn.

“We are particularly excited to introduce this project because it is one of the earliest examples in our collaborative efforts with the interior design and architecture coordinated and designed together from day one,” said Porter. “The architect and I worked closely together throughout the design stage, so the interior and exterior are much more integrated than usual for a project of this type.”

WBA has completed space planning, lighting and ceiling plans, floor plans, elevations and finish selections for the common areas. The firm will complete the furniture bid packages in the coming weeks.
